

# SEVERE DUTY HALF-STAND BEARING SETS

## REV-BEARING® SETS

- Half-Stand Bearings — work with both pre-adjusted or manually adjusted hubs
- Precision Engineered — reducing friction while increasing load capacity
- Sold exclusively in Matched Sets
- Easy part numbering system

RevHD® exclusively sells premium half-stand bearings but at a price point that is comparable to standard bearings.

As a result, you can keep one set of bearings in stock and have the confidence of knowing the bearings you take off the shelf will work in any style hub — pre-adjusted or manually adjusted.
